Professional Summary

Versatile and innovative **Software Engineer** with expertise in designing, building, and scaling cutting-edge web and software applications. Proficient in **full-stack development** with extensive experience in **React.js, Node.js, Python, and MongoDB**, alongside a strong background in **frontend development** and **user-centric design**. Adept at leveraging **modern frameworks, cloud technologies, and DevOps practices** to deliver efficient, scalable, and high-quality software solutions. A proactive collaborator and mentor with a passion for solving complex problems and driving impactful results.

Technical Skills

- **Languages**: JavaScript, Python, TypeScript, C
- **Frontend**: React.js, Redux, Tailwind CSS, SCSS, HTML5, CSS3
- **Backend**: Node.js, Express.js, Flask, Django
- **Databases**: MongoDB, MySQL, PostgreSQL
- **Tools & Platforms**: Git, Docker, Jenkins, REST APIs, GraphQL
- **Cloud Services**: AWS (EC2, S3), Heroku, Netlify
- **Other Skills**: Agile Development, Unit Testing, Debugging, CI/CD Pipelines

---

Education

ALX Software Engineering Program – Certificate of Completion, 2024
Extensive training in full-stack development, algorithms, and advanced problem-solving.

Professional Experience

Software Engineer

LOVETECHCYBER – Remote
2024 – Present

- Architected and deployed scalable web applications using **React.js** and **Node.js**, driving enhanced performance and user experience.
- Integrated third-party APIs to streamline operations, including payment gateways and geolocation services.
- Developed robust RESTful APIs, optimizing server response times by 35%.
- Designed database schemas and implemented secure data handling with **MongoDB**.
- Led the development of an in-house DevOps pipeline using **Jenkins**, automating testing and deployment processes.

Full-Stack Developer

OLUADEPE FARMS NIG. LTD – Remote
2023

- Built an e-commerce platform with dynamic inventory management, enabling seamless customer transactions.
- Designed and implemented a mobile-responsive frontend using **React.js** and **Tailwind CSS**.
- Developed backend services using **Express.js**, enabling secure and efficient data flow.
- Improved user engagement metrics by 25% through optimization of the user interface and interactive components.

Frontend Developer

Brandcurb – Canada
2022

- Delivered high-quality, interactive user interfaces using **React.js**, adhering to accessibility and design standards.
- Collaborated with backend teams to integrate APIs and dynamic content into frontend workflows.
- Conducted A/B testing to enhance website functionality, increasing conversion rates by 15%.
- Optimized codebase by implementing reusable components, reducing development time by 30%.

Key Projects

Dina Wellness

- Developed a multi-functional wellness platform with features including meal kits, catering, and location-based shopping.
- Implemented a dynamic user interface using **React.js**
- Added real-time location detection and custom forms for seamless user experience.

OLUADEPE Farms E-commerce Platform

- Developed an end-to-end e-commerce solution for a farm produce company.
- Utilized **React.js** for the frontend, delivering a visually appealing and intuitive interface.
- Engineered a backend in **Express.js** to handle customer orders, inventory updates, and secure payment processing.

JW SKILLEDHUNT

- Built a job-matching platform connecting employers and freelancers, featuring dashboards for recruiters, job seekers, and admins.
- Implemented live messaging, job filtering, and user profile management.
- Utilized **React Native** for the mobile app and **Node.js** with **MongoDB** for the backend.

Modern Contraceptive Research Platform

- Designed and implemented a survey-based web application for data collection and analysis.
- Integrated data visualization tools for report generation and insights extraction.

Certifications

- **ALX Software Engineer Certificate**, 2024
- **Meta Frontend Developer Certificate**, 2022

Awards & Recognitions

- Recognized by **LOVETECHCYBER** for leading the development of a mission-critical project that increased platform adoption by 40%.
- Successfully developed and launched three high-impact applications in under a year.

Interests

- Open-source software contributions
- AI-driven problem-solving and applications
- Technical mentoring and blogging
